

EDUCATION

B. Tech (Mechanical Engineering)	2023-2027	NSUT, New Delhi	7.67 CGPA
CBSE (Class XII)	2023	SCSDSV Sector-9, Rohini, New Delhi	85.8%
CBSE (Class X)	2021	Apeejay School, Pitampura, New Delhi	91.2%

INTERNSHIP

Larsen & Toubro Mechanical Department – Summer Intern

Chandrawal Water Treatment Plant, Delhi | June 2025 – July 2025

- Generated detailed Bills of Materials (BOM) from AutoCAD drawings for trusses, purlins, and structural steel components.
- Implemented **KAIZEN** and **Lean Six Sigma** practices to improve welding efficiency by 20–25% and reduced rework by 30%.
- Analysed the **hydrodynamic flow** of the water treatment system to assess operational performance and reliability.

Maruti Suzuki India Ltd, Quality Control Department – Summer Intern

MCP Manesar Plant | May 2024 – July 2024

- Applied **Maynard Operation Sequence Technique (MOST)** to optimize Assembly Line-B, reducing fitment time by **27%**.
- Developed a **Video-Based Work Instruction System (WIS)** to train operators on Brezza (YXA) assembly procedures.
- Designed **Suzuki Basic Training Modules (SBT)** covering operator safety, efficiency, and factory process understanding.

ACADEMIC PROJECTS & COMPETITIONS

Captain – Robowar Competition

Team Titan Strike 15 Kg Category | Dec 2025 – Jan 2026

- Led team operations and technical execution for the ASME NSUT as Captain for Team Titan Strike, overseeing critical material sourcing, precision assembly, and real-time troubleshooting during this national-level competition held during ASME EFX 2026 at LMNIIT Jaipur.

BAJA SAE India 2025 – Team Daedalus Racing (NSUT Motorsports)

Chassis & CAE Engineer | Oct 2024 – Jan 2025

- Designed and fabricated an ATV chassis using SolidWorks, ensuring strength, ergonomics, and manufacturability.
- Conducted impact and roll cage **Finite Element Analysis (FEA)** using ANSYS, contributing to team qualification for event finals.

Captain – E-HPVC (Electric Human Powered Vehicle Project)

Team Falcon | June 2025 – Present

- Led a 20-member team in the design and testing of an **electric human-powered vehicle (e-HPV)** compliant with ASME standards.
- Optimized **chassis and drivetrain** using SolidWorks and ANSYS for improved strength-to-weight ratio.

Product Design & Development – IC Engine

Migtron 1.2 L Naturally Aspirated 4 Stroke 4 Cylinder Engine | Sept 2025 – Nov 2025

- Designed and assembled reciprocating engine components in CAD and performed **static structural and thermal analysis in ANSYS** to refine performance and reliability.

XRC Autonomous Virtual Vehicle, ASME E-fest 2025, 2026

Autonomous Vehicle Simulation Engineer

- Developed a virtual autonomous vehicle using HyperSkill software, demonstrating fundamentals of automation and control systems.

SKILLS & INTERESTS

- **Design & Simulation:** SolidWorks, ANSYS
- **Technical Skills:** Python, AI Tools, Codex
- **Process Optimization:** MOST, Lean Six Sigma, KAIZEN
- **Productivity Tools:** MS Excel, MS PowerPoint, MS Word, Canva, Figma
- **Data & Analysis:** MATLAB, Power BI, SQL, TABLEAU
- **Soft Skills:** Team Leadership, Communication, Problem Solving

POSITIONS OF RESPONSIBILITY

Placement Coordinator NSUT – Mechanical Engineering Branch

- Selected among **16 students out of 2000+ candidates** to coordinate placement activities.
- Managed communication between recruiters and students, improving placement engagement.

Treasurer – ASME NSUT

- Treasurer at ASME NSUT, managing budgets, resource allocation, and financial planning for technical events and competitions while also serving as Lead Host for multiple ASME events.
- Captain of the RoboWar competition team and currently leading the Electric Human Powered Vehicle project, developing strong technical, leadership, and project management skills as a Mechanical Engineering student.

CAE & Manufacturing Head – Team BulletHawk Racing

- Appointed as CAE & Manufacturing Head at BulletHawk Racing Team, overseeing design validation, manufacturing processes, and technical execution for automotive engineering projects.

KEY CERTIFICATIONS AND ACHIEVEMENTS

- **Ecopreneurs Case-Comp (DTU 2026):** Secured **1st Position** by proposing manufacturing optimization solution for VTOL.
- **CAD Battle:** 3rd Position at DTU Invictus 2025 (featured on #letspromoteNSUT)
- **Conservation Geography (IIT Kanpur):** Secured 100/100 marks, course Topper **AIR 1**.
- **Design Thinking (IIT Madras):** Learned user-centric problem solving and innovative product design methodologies.
- **Industrial Training in Robotics & AI (My Equation):** Grasped fundamentals of **Robotics** and **AI** getting hands on latest tech.
- **Internet of Things (IIT Kharagpur):** Achieved **91%** in the course, securing a position among the **top 2%** of 48,000 Candidates.
